PROFESSIONAL SUMMARY

I am a Computer Science Engineering student in BITS Pilani Dubai Campus. I have undertaken several projects, which have improved my skills in incorporating ML/DL, image processing and web-dev into building user friendly web & desktop apps. I have obtained practical understanding of modern web development and holistic testing, along with enterprise codebase management and version control.

SKILLS

Languages	Python, Web-Dev (HTML, TypeScript, CSS), C, Java, C# .NET, Visual Basic .NET, MySQL, Windows Batch scripting, VBA
Frameworks	React, Tailwind, Astro, Web Components
Developer Tools	Git, GitHub, Vite, Docker, WSL, FFmpeg
Libraries	TensorFlow, scikit-learn, PyTorch, PIL, Pandas, NumPy, Matplotlib
Soft Skills	Attention to detail, Active listening, Clear communication, Analytical thinking, Self-motivated

EDUCATION

Bachelor of Engineering in Computer Science, CGPA: 9.46 Birla Institute of Technology and Sciences, Pilani <i>Relevant electives: Data Sciences, AI, Data Mining, Cryptography</i>	2022 - Present Dubai International Academic City, UAE
AISSCE Class 12 Board Exams, 93.2% AISSE Class 10 Board Exams GEMS Our Own High School	2022 2020 Al Warqa'a, Dubai, UAE

PROFESSIONAL WORK EXPERIENCE

Software Developer Intern Esri Inc. R&D	Aug 2025 – Jan 2026 Sharjah, UAE
- Headed the migration of Oriented Imagery Viewer widget into Web Components standard - Developed a fully CLI-based Python script for assisting users with the migration of the OIC format to the OID format with multiple, well-documented workflows (CLI), using ArcPy and ArcGIS Python API. - Obtained valuable experience in enterprise codebase conventions and version control	
Machine Learning Engineer Solverminds Solutions & Technologies Pvt Ltd	Jun 2024 – Aug 2024 Dubai, UAE (online internship)
- Trained multiple machine learning models for predicting ship displacement parameters - Researched technical aspects of machine learning from scratch - Improved proficiency in using notebook technologies like Jupyter and Markdown - Gained expertise in using multi-platform bridges such as WSL	

WORK EXPERIENCE

Technical Executive Microsoft Tech Club	Jan 2025 – Dec 2025 BITS Pilani Dubai Campus, UAE
- Collaborated hosting, administration and designing of the questions for the "MTCipher" CTF event - Developed the front-end website for MTC, bringing drastic improvements to codebase quality - Promoted and aided in marketing events for club membership intakes, exercising time management - Optimized cloud file storage and improved quota management with attention to detail	

PROJECTS

Typeface Recognition using Deep Learning Python, PyTorch, PIL, NumPy, Streamlit <i>A Deep Learning based model to predict the Typeface used in a given image. The model has an accuracy of 78.02% in predicting the typeface used.</i> Demo link , GitHub	Sep 2024 – Dec 2024
Multi-Algorithm Encryption & Audio Steganography Python, NumPy, Streamlit <i>A novel algorithm to hide payload in an audio file, while also securing its contents using multi-algorithm encryption. The maximum error at 99th percentile between the original and encoded audio is very low at 1.32%.</i> Demo link , GitHub	Dec 2024 – June 2025
Nuclei Segmentation for H&E images using DL Python, TensorFlow <i>A novel CNN-based "Sine-Net" model to segment on the nuclei present in Hematoxylin- and eosin-stained imagery. The model achieved a training accuracy of 91.7%, and a validation accuracy of 87.1%.</i>	Dec 2024 – June 2025
Janus Browser: Protein Disorder & Pattern Visualizer Dashboard Python, Pandas, Streamlit <i>Interactive dashboard to disordered regions and recurring patterns of human TFs. GitHub</i>	Feb 2026 – Present
MTC Website React, HTML, CSS, JS <i>A one-stop website for all things MTC-related.</i> Live link , GitHub	Jan 2025 – Feb 2025
Timetabler HTML, CSS, JS <i>A better Timetable renderer for BITS Pilani Dubai Campus students. Live link, GitHub</i> More projects are listed in the Portfolio Website .	Feb 2023 – Present
